Boris letter

Westminster
Reasons

Lachó deserves ture miropala Gratan!

At 4-th July I will be on the setting of Council
TERF.

I will be very grateful pralo if from British
Romany Council reference letter for housing
in London will be prepared.

Simon (Roma Support Group) received form for
housing from Westminster housing benefit
office yet. Besides this he purposed his loyal
which has a good experience in housing.

Simon as well will attend the setting of the
TERF' Council.

Pralo Gratan, I give you reasons for housing
in Westminster area and will be necessary
to conect them in the process of writing of
this reference.

The reasons are next:

1. My younger goughter, Muntyanu Lili (1993)
need treatment in Pediatric Health Centre
(nephrology and endocrinology treatment). I have
supporting documents in English.

It is important to underline, that this disa-
bility is a result of long time (more then
2 years) stressful situation because family
separation.

2. My older goughter, Muntyanu Olga (1990) have
finished exelent musical school and has a
reference letter to Royal College of Music
that is located in Westminster area.

3. Southwark College is the center of programme "Refugee Doctor" where I will be deeply involved. This college as well is located in Westminster area.

4. My wife is nurse. Consequently will be involved in programme "Refugee Nurse" which as well in the same college that located in Westminster area.

5. Royal College of Surgery, where I will take Clinical Attachment as well is located in Westminster area.

6. As a member of British Romany Council, doctor and scientist, I began to realise a project "Sastemos" (Health). This project has a support from British Churches Committee for Racial Justice, British Romany Council, United Nation's Development Programme.

This project will focus health issue of Romany/Travellers Community in this country. The principal object to create a adequate system of medical and care assistance for this part of society.

This project will interlacing with Human Development Programme of UN concerning issue in European Romany Nation.

Thus will be necessary to have intencir collaboration with:

- a) Governmental Health Department
 - b) Members of British Parliament
 - c) Office of UN
- } Westminster area

Finally, in this way, needs of my family,
studing and specialisation and my social-
political activity will take place in this
area (Westminster) that is criterion for
a housing appeal in this area - Westminster.

I sent a photo for badge:

☐ BRITISH ROMANY COUNCIL
MEMBER

Dr., Surgeon, Ph.D (marine, aviation and space medicine)
BORIS 'MUNTYANU

See you soon

But baht thy sastipe

Boris.
